

# Existing Stimulus as a Function of Income and Family Status

Taking advantage of [snw\\_stimulus\\_checks\\_biden](#) from the [PrjOptiSNW Package](#), this function presents stimulus checks at different income levels for households with different children count and marital status. This is for the Biden Stimulus under the [American Rescue Plan Act](#).

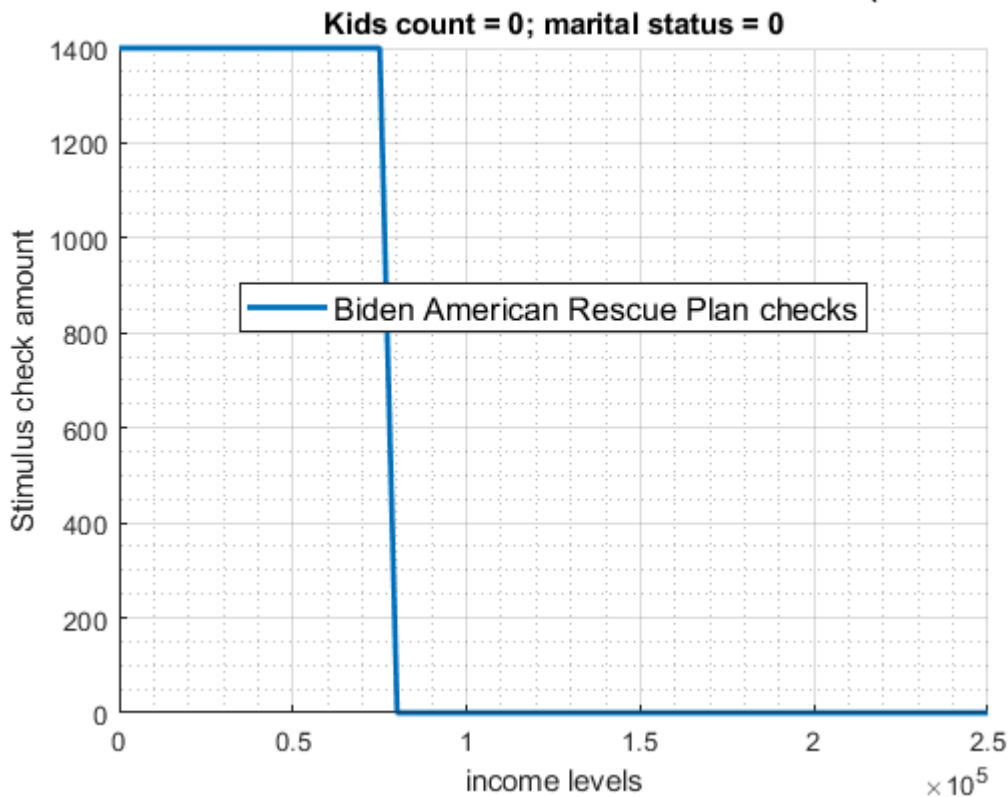

## Biden Stimulus Checks for Unmarried Households

Check base amount per adult and per child for the first and second rounds.

Visualize stimulus check amounts.

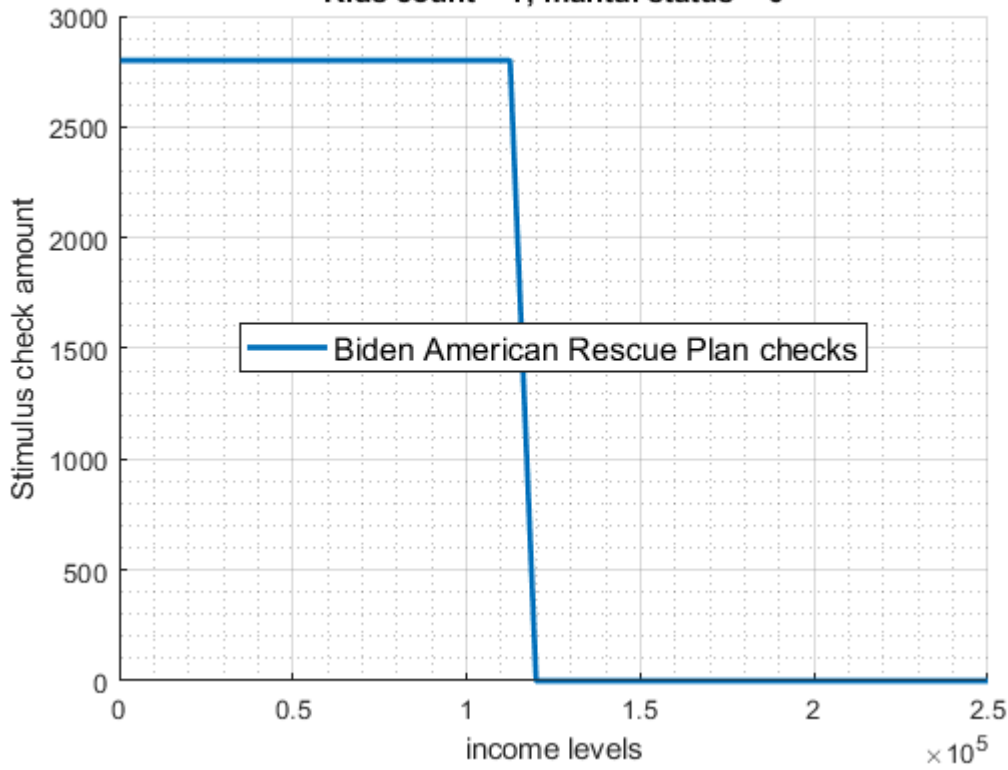

```
bl_visualize = true;  
bl_marital = 0;  
for it_kids=0:1:4  
    snw_stimulus_checks_biden(it_kids, bl_marital, bl_visualize);  
end
```

ten stimulus check amounts as a function of household income (under consider:

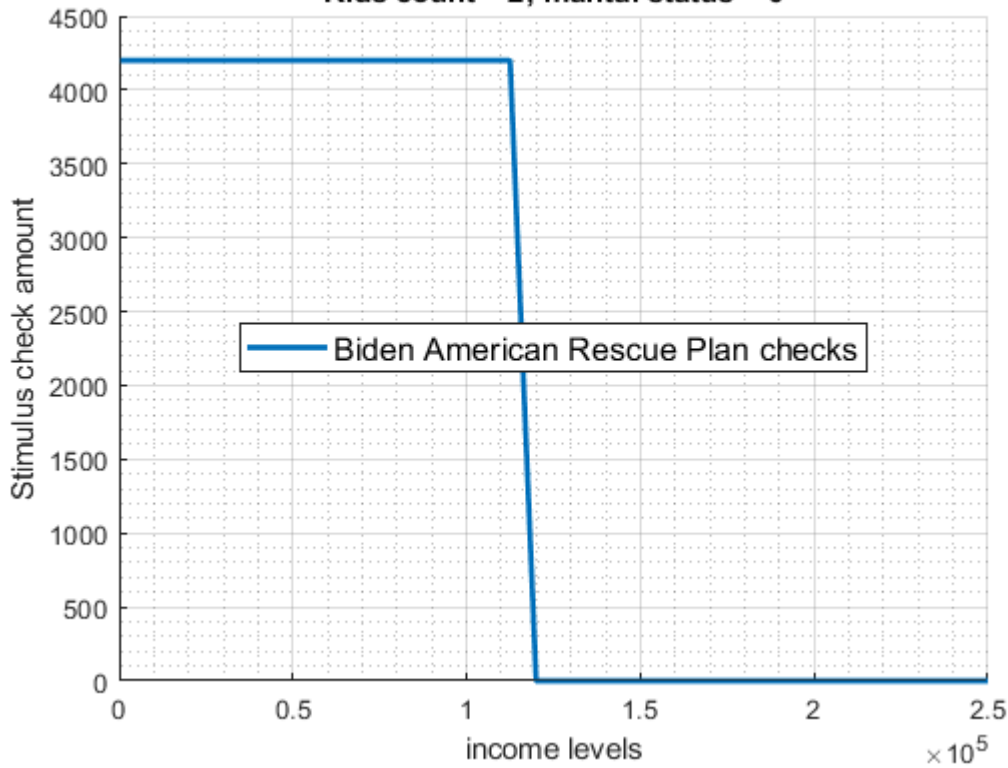

ten stimulus check amounts as a function of household income (under consideration)

Kids count = 1; marital status = 0

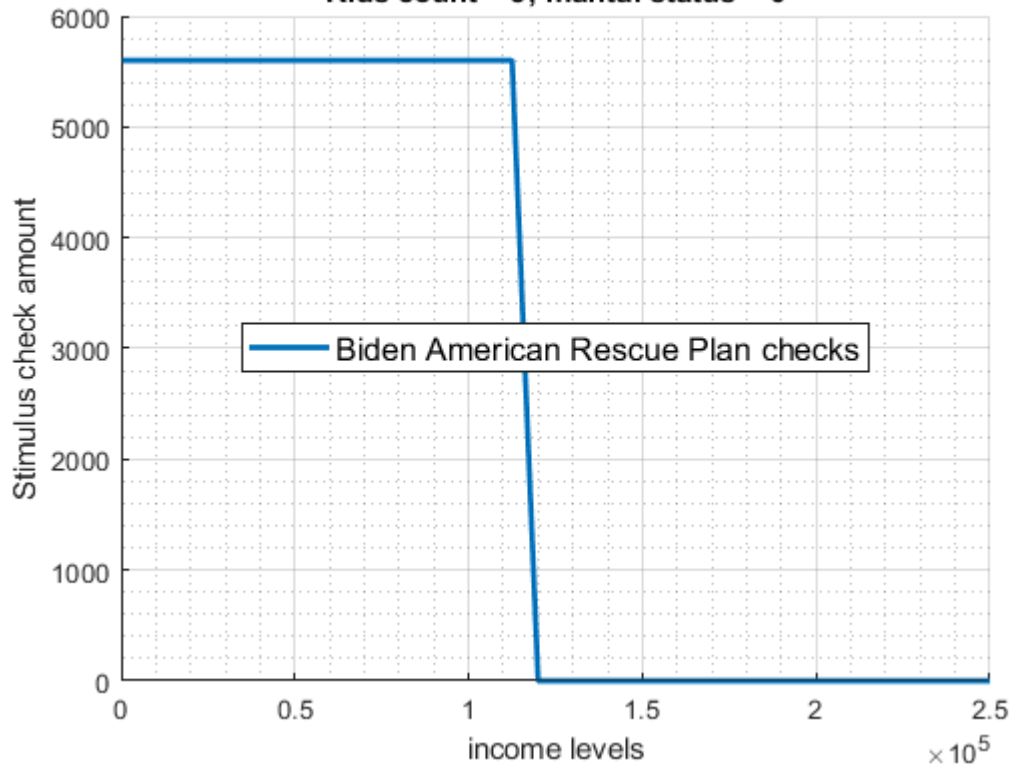

ten stimulus check amounts as a function of household income (under consideration)

Kids count = 2; marital status = 0

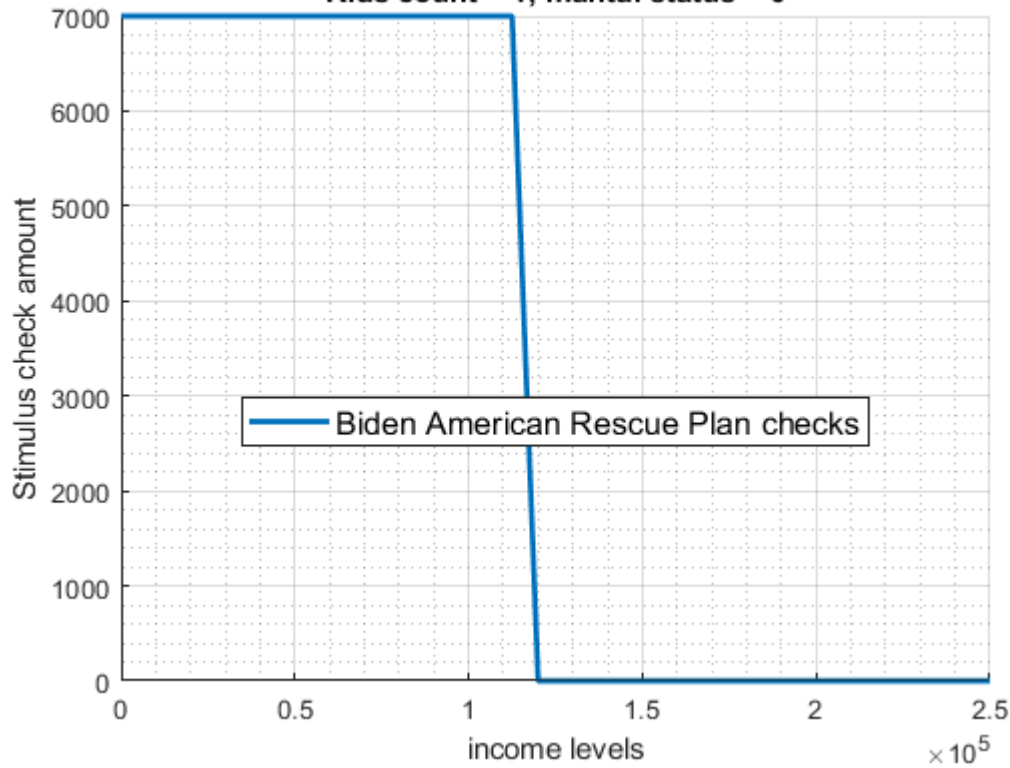

ten stimulus check amounts as a function of household income (under consider:

Kids count = 3; marital status = 0

ten stimulus check amounts as a function of household income (under consider:

Kids count = 4; marital status = 0

## Biden Stimulus Checks for Married Households

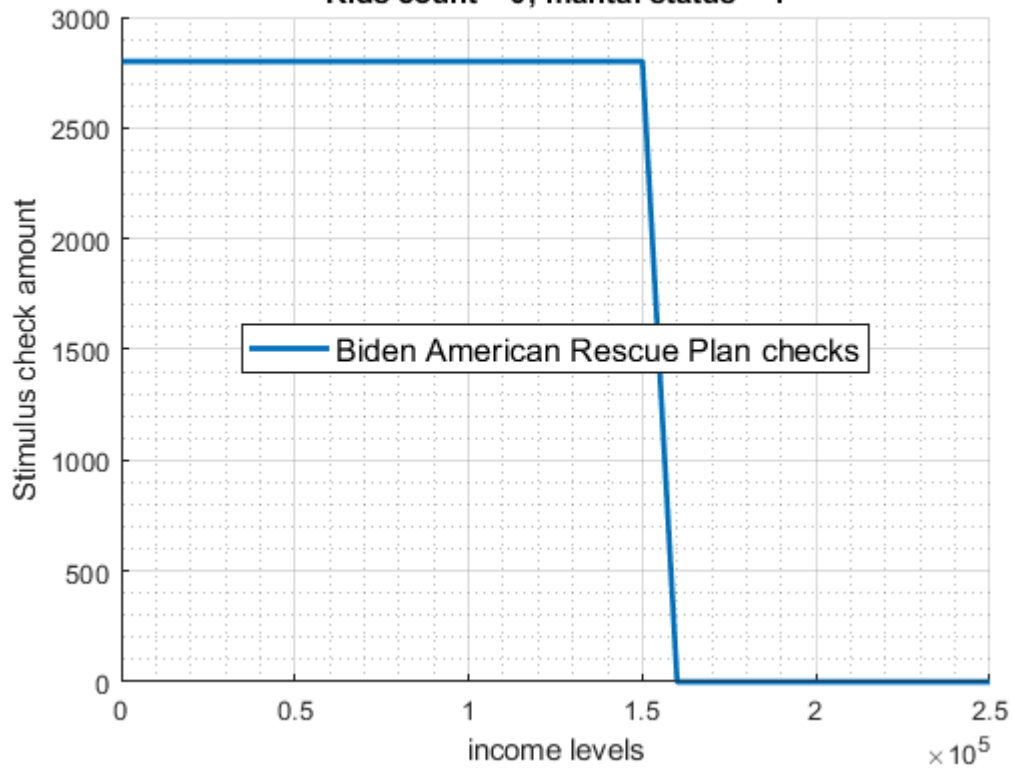

Visualize stimulus check amounts.

```

bl_marital = 1;
for it_kids=0:1:4
    snw_stimulus_checks_biden(it_kids, bl_marital, bl_visualize);
end

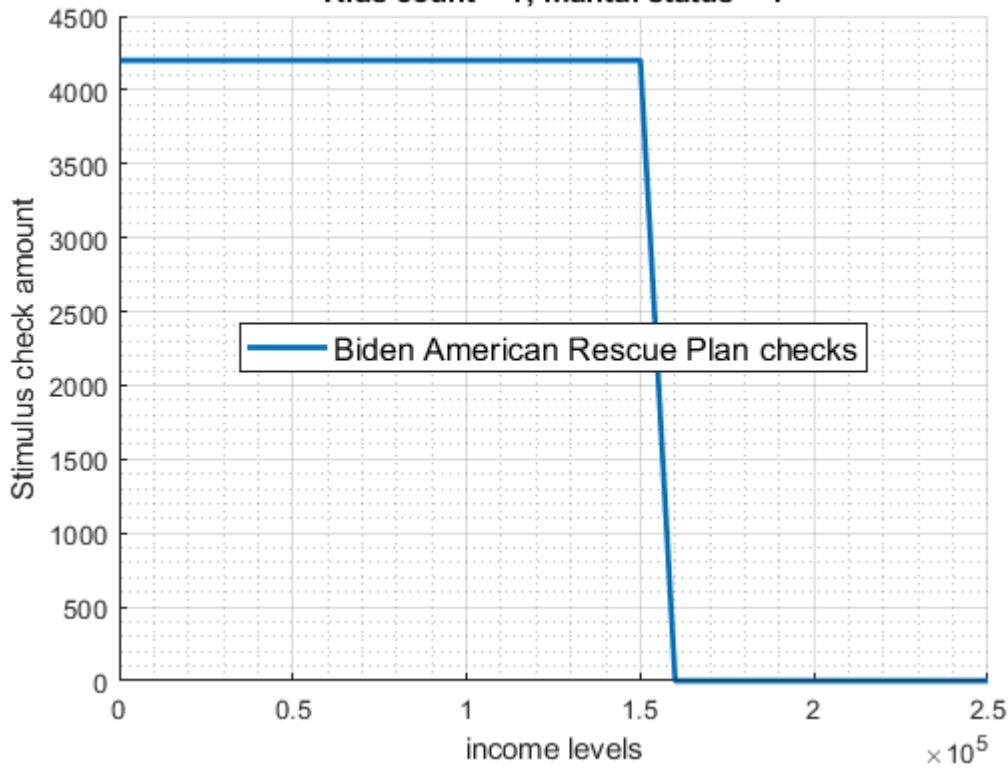

```
